**EXPANSION UNDERWAY** The first phase of the Creemore Springs Brewery expansion started to take shape this week, with builder Cowden Woods on site to erect the steel frame of the addition on the back of the building, which will house several new fermenting tanks and a covered grain silo. **Geoff Davies**, the brewery's project and facilities manager, hopes to have this part of the building functional, with beer in the tanks, by June 24. Site works will follow throughout the summer, and the new warehouse will be built on the south end of the building in the fall. Davies said he's been pleased with the community's reaction to the construction so far, and encouraged anyone with concerns to get in touch with him. While portions of the site look fairly messy at the moment, with piles of debris left over from the house demolition that occurred earlier this spring, Davies said that will all be cleaned up as soon as half-load limits are removed from area roads, which typically occurs around the beginning of May.

## MULMUR SIGNS FOOD AND WATER PLEDGE

by Brad Holden

Mulmur Council voted unanimously Wednesday night to put "food and water first" when considering all development issues within the Township, making the municipality one of the first to accept the pledge put forward by the North Dufferin Agricultural Task Force as part of its new advocacy campaign. **Shirley Boxem**, a representative of NDACT, had presented the campaign to Mulmur at a previous meeting.

Details about the new initiative, as well as an opportunity to take the pledge yourself, can now be found at the website [foodandwaterfirst.com](http://foodandwaterfirst.com).

### Residents Honoured

Mulmur Council continued its tradition of honouring residents for outstanding achievements at the outset of its Wednesday evening meetings this week, with Mayor **Paul Mills** presenting recognition certificates to **Darby Mailhot** and **Andy Barrie**.

Mailhot is currently ranked seventh in the world in her age group in the sport of reining, an equestrian discipline that can most easily be described as the Western version of dressage. The 17-year-old rider has spent much of the spring visiting American colleges and universities, where it's likely she'll receive a full scholarship to study and compete.

Barrie is a well-known broadcaster who retired from CBC Radio's Metro Morning show in 2010. In December, he received the Order of Canada for his work in broadcasting as well as his advocacy work for sufferers of Parkinson's Disease. He and his late wife Mary Cone Barrie fell in love with Mulmur because of the view from their Ruskview home, but Barrie told

## Get growing at Home and Garden Show

For over a decade, the "Get Growing" Home and Garden Show in Creemore has attracted exciting exhibitors and noteworthy speakers and gathered large crowds. This year, the annual show is back and bigger than ever. Celebrate the beginning of spring at the Creemore Community Arena on Saturday, April 20 from 10 am to 5 pm and Sunday, April 21 from 10 am to 4 pm. Tickets are \$3 for adults and free for children under 12 when accompanied by an adult.

**Lexi Dearborn** of Dearborn Designs & Associates will be among the many presenters on the Seminar Stage. Dearborn, the principal designer of this award-winning

landscape design firm, will share her vast knowledge of garden design. As well, **Nathan Bellamy** of Axxess Tree Care will host a seminar to inform visitors on how to properly care for their trees. Nathan will also hold a tree identification contest, allowing one lucky audience member to go home with a beautiful bonsai tree. Visit the Seminar Stage throughout the weekend for demonstrations on the evolution of a garden, flower arranging and much more.

The Creemore Home and Garden Show will feature a blend of new exhibitors and popular returning vendors. Don't forget to participate in the Big Backyard Giveaway by

picking up a passport as you enter the show. This year's grand prize is a tiki hut donated by Thornbury Clear Choice Pools and Spas, \$1,200 towards energy efficiency/high performance windows or doors donated by Sea & Ski Realty Ltd. Brokerage, as well as two magnificent trees valued at \$600 thanks to Triple J Farm Inc.

Whether you are seeking advice from an expert on how to improve your garden, hoping to participate in an educational seminar or workshop, or just wanting to spend the day away with your family, the Get Growing Home and Garden Show Creemore Arena is the place to be this weekend.

# Newest member of Clearview team settles in

by Brad Holden

For some, replacing the freshly retired 48-year municipal veteran **Bob Campbell** might be an intimidating prospect, but for incoming Clearview Township clerk **Pamela Fettes**, it's one of the attractions of the job.

"One of the main reasons I applied to this job is for stability," said Fettes, whose career in municipal administration had most recently taken her to Meaford, where she witnessed a high rate of staff turnover. "When I found out that Bob had been here as long as he had, I figured Clearview Township must be doing something right."

A native of Mount Forest, Fettes got her start in municipal work with her hometown municipality, the Township of Wellington North, when she took a summer student job there while completing a political science degree at Wilfred Laurier University. "I was really lucky to have that opportunity," said Fettes, explaining that rather than hire a costly consultant to perform a review of its recreation facilities and services, that year Wellington North decided to put its summer student in charge of the job. Fettes was the lead on the review, and now, 10 years later, she's watching from afar as some of the larger capital recommendations proposed in the review are being put into place.

"That job made me fall in love with municipal politics," she said. "I saw that you can make a real difference at the grassroots level, if you're willing to work hard and engage with Council."

Fettes was so excited by the experience that she immediately took a contract in the clerk's department at the City of Brockville, electing to continue working while completing her undergraduate degree by correspondence. When she graduated, she moved on to a full-time job at the Region of Waterloo. But in Brockville she had grown accustomed to living by the water, so when the opportunity came to take a job with the Municipality of Meaford, she jumped at it.

Along the way, she earned her Municipal Administration diploma and worked toward her Certified Municipal Officer accreditation, and by the time she left Meaford she had risen to the position of Director of Legislative Services – that municipality's title for its clerk.

Fettes started with Clearview Township in mid-March, and has enjoyed working alongside

**Pamela Fettes**

Campbell, who will officially resign his position at the end of April. "Bob's been wonderful," she said. "He's welcomed me with open arms."

The clerk's role, for those unfamiliar with the structure of municipal government, is to act as a secretary to Council. Fettes will set meeting agendas, log minutes, and write bylaws. "Basically, everything that goes to Council is touched by me in some way," she explained. In addition, clerks are responsible for municipal elections, and at Clearview Township the clerk also handles Freedom of Information requests and manages the bylaw enforcement department. Fettes will be assisted by Township deputy clerk

**Brenda Falls**, whom she also said had been a great help over the past month.

Fettes, who lives in Collingwood and basically switched her commute from a westward one to an eastward one when she transferred from Meaford to Clearview, is a committed community volunteer who was involved with several organizations and events in Meaford. "I think it's a great way to get out into the community, and meet people as individuals," she said. She's currently on the lookout for volunteer opportunities here in Clearview, so if you have something in mind, be sure to get in touch.

## EDITORIAL Can't keep a good man down

Mulmur Councillor Earl Hawkins paid a visit to the *Echo* office this week, primarily because he wanted to advertise some hay for sale. But those who know Earl will know that he's always up for a chat, so he also brought us up to date on his recovery from a surprise stroke suffered on March 9.

The most interesting thing he told us was that, at least in his case, the stroke didn't hurt. His happened as he was lying in bed watching TV after a busy day. He felt a shudder, he said, and not thinking much of it, he rolled over and went to sleep.

The next morning he got up, put on his clothes, went downstairs, poured a cup of coffee, and couldn't find the sugar. And when he tried to call to his wife Rhonda in the next room, he realized nothing would come out of his mouth.

Earl was lucky, as he suffered no paralysis or any other physical effects. His doctors told him it would take some months for his speech to come back, and it has come a long way already. He couldn't write immediately after the stroke either, and that ability has already returned. This past Wednesday, he was able to contribute to the debate at Mulmur Council.

A hard-working farmer his whole life, Earl is one of those guys who has never taken a pill and rarely seen a doctor in the past. But his advice to us, given his recent situation, is to get checkups regularly. It's a lesson we should all heed. Not everyone is as lucky as Earl.

## THE WAY WE WERE

Inspired by **Orneva Pardy's** photo of the 1968 Lions Club in last week's paper, **Colleen Stamp** brought in this photo of some of the Lions in 1972, when they met at the old Legion (the current site of Teddy Bear's Picnic). In back are Rolf Getz, Ernie Roberts, Don Carruthers and Grant Robb. In front are George Ransier, Jim Miller, Cecil Stamp, Howard Hanson and Les Wilson.

## LETTER

# Green Energy Act is a "sad legacy" for our children

Dear Editor:

The good news is, we sold \$160 million of Ontario's electricity to our neighbours last year.

The bad news is, it cost us over \$280 million to produce the electricity we sold. Ergo, \$120 million for electricity we had to pay them to take.

The sad news is, we paid wind generators an additional \$250 million not to generate, as part of their \$3.6 billion in guaranteed subsidies!

The Ontario government is bragging that we can be proud that we sold \$160 million worth of electricity to neighbouring states and provinces in 2012. Ergo, "everything is going well with Ontario's energy initiatives." What they're overlooking is what it cost to produce it, leaving out the \$120 million we paid them to take it.

To add insult to injury, on our electricity bill, we receive a smoke and mirrors "Ontario Clean Energy Benefit" designed to make you think there is, in reality, a benefit, but which in fact simply adds \$1.6 billion to the provincial deficit annually. And let's not mention that nasty escalating item called "Delivery Charge."

Further, to retain many of our larger industries, they're given a rate of 4.5 cents per kwh, in comparison to our globalized rate of 8 cents per kwh, a subsidy the rest of us pay for.

Swept under the table is the "sad" part of the story. Our government completely ignores the fact that the Green Energy Act is causing financial havoc with the

system and spiraling its cost. In 2012 wind generation contributed only three per cent to the system, yet it will quadruple the cost to consumers in five years.

All wind turbine generation is guaranteed to be paid for at a rate four times greater than hydro power. And it's paid whether the power is used or not. When the wind don't blow, the turbines don't go! Wind turbines produce electricity only 28 per cent of the time – 87 per cent of that time when not needed (mostly at night when demand is low). However, because their use is prioritized in the system, hydro (at 3.5 cents per kwh) or nuclear (at 5.6 cents kwh) are shut down to accommodate it (at 13.5 cents per kwh). We're allowing water to spill over Niagara Falls and venting steam from nuclear plants, in order to absorb the intermittent production of wind power.

Over the next five years, if the costs projected are allowed, the average household's electrical bill will balloon from \$1,700 in 2013 to \$4,000! If this happens, we can expect a depression of our industries, businesses, institutions and households... creating a "power poverty." With every cup of coffee sold, widget manufactured, or streetcar ridden, our wallets will get a severe shock. There will be many who can't afford it.

Without wind energy, Ontario's present expansions to hydro and nuclear will be enough for the base load required for the province (with no carbon footprint). For the variable peaks required, gas-fired plants will have triple the required capacity. The good thing about

gas is that it can be turned on and off quickly so you only generate to demand, at approximately 15 per cent capacity on average. Gas also emits less than half the carbon footprint of coal.

The defining question is: "What will we do for electricity when the 20-year windpower contracts expire and there are no more subsidies?" If we then don't have an adequate infrastructure of hydro, nuclear and gas generation... what? With no more subsidies, Ontario's landscape will become a graveyard for over 17,000 turbines. (They're designed to last 20 to 25 years. At that point, they're not worth refurbishing, and too expensive to take down).

If moving gas plants for \$260 million was scandalous enough to prorogue parliament, what will \$7 billion to unravel the Samsung agreements do?

The Green Energy Act is bankrupting our province. It is a sad legacy for our children.

# Creemore Big Heart Seniors

There were 47 present today, and when **Jim** and **Marg Ferguson** arrived I discovered that, bless their hearts, they had realized that we were absent last week and brought in some lemons for us. Talk about thoughtful people! We are so fortunate that many of our Seniors are concerned and caring individuals by nature – like Jim and Marg, who remembered some were among the missing last week and made a point of bringing in some lemons this week so we got a chance to enjoy them. Thank you both a whole bunch!

**Jim Rigney** announced that Saturday, May 11, 2013 was the date of the “Ramp Romp” (Leek supper) that has been held in Singhampton every spring for some years now. We will have more info later. Then President **Ray Leighton** mentioned that today, April 11, was **Carol Faulkner’s** birthday, so we all gave her a big hand. Carol is a pretty, fairly quiet gal with a great sense of humour, and is a gal that we all enjoy playing with. She is a great addition to the club.

The 50/50 draws went to **Dean Chestnut, Alma Seifert, George Blakney, Mary Gilcrest, Marcia Cameron, Peter Gubbels, Karl Seifert** and **Lucy Young**.

Moon shots were played by **Peter Gubbels, George Blakney, Lillian Hiltz (2), Bob Veale (2), Evelyn Warden, Warren Gale (2), Russ Miller, Dave Smith, Janice Stephens** and **Norma Johnston**. Norma won

SENIORS

Sylvia  
GALE

the \$5 travelling prize, and Bob won the Sidewinders loot.

High scorers were **Ray Leighton** 299, **Lillian Hiltz** 289, **Jean Lune** 286 and **Mike Smith** 274. Low was **Pat Broad** with 49.

We had intended to have a “Congratulations and well done!” go out to the *Creemore Echo* staff for earning kudos in three categories at the Ontario Community Newspaper Awards recently. There are a lot of small town newspapers in Ontario, and a lot of them have far larger staff – so there is plenty of competition for any accolades that are available. Creemore’s “Echo” again held her own in the awards department. Very nice!

We missed the last supper at the Legion mainly due to the threat of freezing rain warnings. We could have got out and up to Creemore, but I am on oxygen, and common sense dictated that we not take a chance on icy roads. We always carry a spare oxygen cylinder “just in case” but, even so, we still don’t like to tempt fate by going out, at night, in lousy weather, when we don’t absolutely have to. But it was too bad that miserable weather came in that day, because a lot of people spent quite a while getting the food prepared and cooked, only to have a much reduced attendance.

I was on the phone, talking to our four-year-old great grandboy **Colby Kidd**, who lives near Red Deer,

Alberta. Their two dogs, Chevvv and Kodiak, were dashing around the house. Colby’s comment was, “I think they ate too much sugar!”

Colby’s dad, **Curtis**, was telling me about finding a guy who had driven his vehicle off the road, and was stuck in the ditch in the middle of nowhere. So as usual, Curtis got out and got a chain from his rig truck and pulled the guy out of the ditch and back onto the road. As he was loading up his chain getting ready to leave, the driver of the “stuck truck” asked Curtis for his insurance number. When Curtis asked why he would want that, the man replied that he “hadn’t had time to look around – there may be damage!” Curtis just drove off. I give him great marks for

restraint, because I would have pushed that guy and all his accoutrements back into the ditch and then drove off!

**Calum Kirk** is another great grandboy of ours in Alberta. Calum is 11 years old, soon to be 12. His older brother **Alex** is now an EMR (Emergency Medical Responder) and he is working on his EMT (Emergency Medical Technician) and has his final exams in June. So Alex convinced Calum to be his “patient” while Alex practiced his bandaging. Calum’s Facebook entry tells it all, succinctly. There is a picture of him with a ton of bandages and tape that he has pulled off himself lying all around him. His message says, tellingly, “ouch ouch ouch ouch ouch!”

Renewable Energy Approval  
Notice of Project Change  
S.16.0.1 Ontario Regulation 359/09 (as amended July, 2012)

**NOTICE OF PROJECT CHANGE**  
**by Dufferin Wind Power Inc. regarding a Proposal to Engage in a Renewable Energy Project**

**Project Name:** Dufferin Wind Power Project  
**Project Location (municipalities):** Melancthon, Shelburne, and Amaranth in the County of Dufferin, Ontario  
**Dated at:** The County of Dufferin, April 9<sup>th</sup>, 2013  
**OPA Reference #:** F-000661-WIN-130-601  
**EBR Registry Number:** 011-7852

Dufferin Wind Power Inc. is planning to engage in a renewable energy project which will require the issuance of a renewable energy approval (REA) by the Ministry of the Environment (MOE). The proposal to engage in the project and the project itself are subject to the provisions of the *Environment Protection Act* (Act) Part V.0.1 and *Ontario Regulation 359/09* (Regulation).

An REA application was made to the MOE in August 2012. It was deemed complete by the MOE and posted for a 30 day public review and comment period starting December 27, 2012 and ending on February 12, 2013. Currently the application is undergoing a six-month technical review by the MOE.

Since submission of the application, minor changes are being proposed by Dufferin Wind Power Inc. Project modifications following the Final Public Meeting for the Project require notification to the Director of the change(s), as per s. 16.0.1 (2), and publication of a Notice of Project Change under Section 16.0.1 (3) of the Regulation. This Notice is being distributed in accordance with Section 16 of the Regulation.

**Project Description:**  
Pursuant to the Act and Regulation, the facility, in respect of which this project is to be engaged in, is a wind energy project and is rated as a Class 4 Wind Facility. If approved, the proposed wind farm project would have a total name plate capacity of 99.1 MW. The wind farm components are to be located entirely in the Township of Melancthon. The Project requires a 48km power line that would be constructed within a private easement and within the County-owned former Bruce Grey rail corridor. It would pass through the Township of Melancthon, the Town of Shelburne (underground) and connect to the Provincial grid in the Township of Amaranth.

- Description of Minor Changes to the REA Application**  
Seven minor project modifications are proposed:
- 1) Expansion of power line easement on Lot 26, Concession 4, Township of Melancthon
  - 2) New alignment for underground collector line to connect Turbines 32 and 33
  - 3) Shift of feeder line within existing buildable area at Turbine 48
  - 4) Rerouting of feeder line between Turbines 38 and 39
  - 5) Power line will now be placed overhead (rather than below ground) through wetland features
  - 6) Possible extension of the underground section of power line through Town of Shelburne
  - 7) Possible extension of the underground section of power line through the Township of Amaranth

**Documents for Public Inspection:**  
Further to this Notice, details of the proposed changes can be found in a Changes Report (dated March 6, 2013) posted on the Project website at: <http://www.dufferinwindpower.ca>. A hard copy can be viewed at the Project Office located at 219 First Avenue East, Unit #2, Shelburne ON, L9V 3J9

**Project Contacts and Information:**  
Please call **1-855-249-1473** or email [info@dufferinwindpower.ca](mailto:info@dufferinwindpower.ca) to comment on the project or for further information.

## LETTER

# Farmland trumps development

Dear Editor,

My family moved to Creemore two years ago and in that time I have come to recognize the importance the land and farming holds for both my neighbours and acquaintances in town. Having come from the GTA, this is something new as farmland was something "out there" and, after all, there was an unending supply.

The Greater Toronto Area that I left believes that development trumps farmland and food production. Just last week, Doug Ford, the Mayor of Toronto's brother, in support of Porter Airlines' desire to lengthen the runway at Billy Bishop Airport, said that if they didn't have Porter Airlines "there'd be a cornfield over at the airport right now." (*Globe and Mail*, April 10, 2013)

Fred DeGasperi, a GTA developer and construction magnate who died on March 27, was eulogized by the *Toronto Star* in its headline, "Visionary developer Fred DeGasperi saw city streets where others saw farmers' fields." (*Toronto Star*, March 28, 2013) Both of these comments were made in all sincerity as they knew that their readers in the GTA would relate to that.

However, the mega quarry and the grassroots battle to oppose it brought home to me the value of "cornfields" and "farmers' fields" along with our water supply. More importantly, it

underlined the fact that while the vast majority of Canada's prime farmland is found right here in Southern Ontario, the best of that farmland has already been paved over and developed for the GTA and Golden Horseshoe areas.

Last Friday and Saturday's power failure from the ice storm left us without light, heat, and water. Hydro has been something we take for granted but when it's gone, it really makes an impact. Are we doing the same with farmland as hydro – taking it for granted until it is gone? We can get by without electricity if we need to, but how do we get by without food?

It is time that we had a serious discussion about the preservation of good farmland and source water here in Ontario before it is too late. I am pleased to see that NDACT continues to advocate for the preservation of farmland through its visionary "Food and Water First" campaign. I would urge anyone interested in the value of farmland, farming and food production, and preserving our source water to check out the NDACT website ([www.ndact.com](http://www.ndact.com)) to see what they have to say and if you can support this cause, give the pledge for 'Food and Water First.'

Thank you.  
**Brian Bell**, Creemore

those assembled Wednesday night that the greater community quickly won them over.

## Confusion on Fire Report

A situation that has been hanging over Mulmur Council for two and a half years was the subject of more discussion Wednesday night, with Council divided on whether any progress was made.

An Ontario Fire Marshall's report on the delivery of fire services in Mulmur was received by Council at the beginning of February. In it were 30 recommendations to improve or equalize service across the three departments – Mulmur-Melancthon, Rosemont and Shelburne – that provide fire protection in the Township.

Most of the recommendations were addressed to Council, and Deputy Mayor **Rhonda Campbell Moon**, a firefighter herself, has been adamant that it's now Council's responsibility to go through the report and ensure that the Fire Marshall's demands are met.

The rest of Council, however, feel they don't have the knowledge of fire protection and prevention to do the work, and that the chiefs of the three departments should be leading the process.

The report is currently with the chiefs, and Council directed staff Wednesday night to have them bring their findings back to Council, and to ask the Fire Marshall's Office back for direction on how to proceed. The motion passed unanimously, though Campbell Moon commented that she was only voting in favour to initiate some progress on the situation.

Mulmur residents **Andy Barrie**, above right, and **Darby Mailhot**, below left, were presented with certificates of recognition for their outstanding achievements by Mulmur Mayor **Paul Mills** Wednesday evening.

## IN MEMORIAM

**SCOTT** – In Memory of Lyle Scott September 10 1941 – April 12, 2010 Gone but not forgotten. The Scott Family

**HAMMILL** – In loving memory of Scott Hammill who passed away April 22, 2005.

As long as hearts remember,  
As long as hearts still care,  
We never part with those we love  
They’re with us everywhere  
So many of our precious memories  
Of those we hold so dear,  
Bring peace and comfort to us now  
And keep our loved one near.  
Love from family and friends

**CORBETT** – In loving memory of Norman, who died on April 15, 1970 and Lizzie, who died on April 22, 2004. Wonderful memories keep you near. Queenie and Floyd

**DAY** – In memory of Bill Day who left us on April 20, 2012.

Some may think you are forgotten  
Though on Earth you are no more.  
But in memory you are with me  
As you always were before.  
Love, Muriel, Jim, Paul, Gwen, Lynn and families
